public health assessments under section 104(i) of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA), as amended by the Superfund Amendments and Reauthorization Act (SARA) [42 U.S.C. 9604(i)].

Availability

The completed public health assessments are available for public inspection at the Division of Health Assessment and Consultation, Agency for Toxic Substances and Disease Registry, Building 33, Executive Park Drive, Atlanta, Georgia (not a mailing address), between 8 a.m. and 4:30 p.m., Monday through Friday, except legal holidays. The completed public health assessments are also available by mail through the U.S. Department of Commerce. National Technical Information Service (NTIS), 5285 Port Royal Road, Springfield, Virginia 22161, or by telephone at (703) 487-4650. A charge is applied by NTIS for these public health assessments. The NTIS order numbers are listed in parentheses following the site name.

Public Health Assessments Completed or Issued

Between April 1, 1995 and June 30, 1995, public health assessments were issued for the sites listed below:

NPL Sites

California

McCormick & Baxter Creosoting Company—Stockton—(PB95– 203667)

Colorado

Asarco, Incorporated (Globe Plant)— Denver—(PB95–219716)

Florida

Chevron Chemical Company (Ortho Division)—Orlando—(PB95– 219184)

Escambia Wood—Pensacola (A/K/A Escambia Treating Company)— Pensacola—(PB95–226239)

Hipps Road Landfill—Jacksonville— (PB95–226171)

Illinois

Velsicol Chemical Corporation (Illinois)—Marshall—(PB95– 220703)

Louisiana

Combustion, Incorporated—Denham Springs—(PB95–227807) Gulf Coast Vacuum Services—Abbeville— (PB95–227799)

Massachusetts

New Bedford Site—New Bedford— (PB95–216875)

New Hampshire

New Hampshire Plating Company— Merrimack—(PB95–240586) New Jersey

Curcio Šcrap Metal, Incorporated— Saddle Brook Township—(PB95– 219390)

Garden State Cleaners—Minotola— (PB95–216974)

South Jersey Clothing Company— Minotola—(PB95–216974)

New York

Carroll & Dubies Sewage Disposal— Port Jervis—(PB95–216842)

Ohio

North Sanitary Landfill—Dayton— Dayton—(PB95–219333)

Oregon

McCormick & Baxter Creosoting Company (Portland)—Portland— (PB95–232765)

Pennsylvania

Crater Resources/Keystone Coke/Alan Wood—King of Prussia—(PB95– 216628)

UGI Columbia Gas Plant—Columbia— (PB95-226411)

Wisconsin

Ripon City Landfill—Ripon—(PB95–209458)

Non-NPL Petitioned Site

Pennsylvania

Cabot-Wrought Products—Division of Cabot Corporation (A/K/A NGK Metals/Cabot Berylco, Incorporated)—Muhlenberg— (PB95–242533)

Dated: October 24, 1995.

Claire V. Broome,

Deputy Administrator, Agency for Toxic Substances and Disease Registry.

BILLING CODE 4163-70-P

Agency For Toxic Substances and Disease Registry [ATSDR-102]

Availability of Draft Toxicological Profiles

AGENCY: Agency for Toxic Substances and Disease Registry (ATSDR), Department of Health and Human Services (HHS).

ACTION: Notice of availability.

SUMMARY: The Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (CERCLA), as amended by the Superfund Amendments and Reauthorization Act of 1986 (SARA) (42 U.S.C. 9604(i)(3)) directs the Administrator of ATSDR to prepare toxicological profiles of priority hazardous substances and to revise and republish each toxicological profile as necessary. This notice announces the availability of eight updated drafts and three new draft toxicological profiles

prepared by ATSDR for review and comment.

DATES: Comments on these draft toxicological profiles must be received on or before February 20, 1996. Comments received after the close of the public comment period will be considered at the discretion of ATSDR based upon what is deemed to be in the best interest of the general public.

ADDRESSES: Requests for copies of the draft toxicological profiles or comments regarding the draft toxicological profiles should be sent to the attention of Ms. Kim E. Jenkins, Division of Toxicology, Agency for Toxic Substances and Disease Registry, Mailstop E–29, 1600 Clifton Road, NE., Atlanta, Georgia 30333.

Requests for the draft toxicological profiles must be in writing. Please specify the profiled hazardous substance(s) you wish to receive. ATSDR reserves the right to provide only one copy of each profile requested, free of charge. In case of extended distribution delays, requestors will be notified.

Written comments and other data submitted in response to this notice and the draft toxicological profiles should bear the docket control number ATSDR-102. Send one copy of all comments and three copies of all supporting documents to the Division of Toxicology at the above address by the end of the comment period. All written comments and draft profiles will be available for public inspection at the ATSDR, Building 4, Executive Park Drive, Atlanta, Georgia (not a mailing address), from 8:00 a.m. until 4:30 p.m., Monday through Friday, except for legal holidays. Because all public comments regarding ATSDR toxicological profiles are available for public inspection, no confidential business information should be submitted in response to this notice.

FOR FURTHER INFORMATION CONTACT: Ms. Kim E. Jenkins, Division of Toxicology, Agency for Toxic Substances and Disease Registry, Mailstop E–29, 1600 Clifton Road, NE., Atlanta, Georgia 30333, telephone (404) 639–6357.

SUPPLEMENTARY INFORMATION: The Superfund Amendments and Reauthorization Act (SARA) (Pub. L. 99–499) amends the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA or Superfund) (42 U.S.C. 9601 et seq.) by establishing certain responsibilities for the ATSDR and the Environmental Protection Agency (EPA) with regard to hazardous substances which are most commonly found at

facilities on the CERCLA National Priorities List (NPL). Among these statutory provisions is that the Administrator of ATSDR prepare toxicological profiles for substances included on the priority lists of hazardous substances. These lists identified 275 hazardous substances that ATSDR and EPA determined pose the most significant potential threat to human health. The availability of the revised priority list of 275 hazardous substances was announced in the Federal Register on February 28, 1994 (59 FR 9486). For prior versions of the list of substances see Federal Register notices dated April 17, 1987 (52 FR 12866); October 20, 1988 (53 FR 41280); October 26, 1989 (54 FR 43619); October 17, 1990 (55 FR 42067); October 17, 1991 (56 FR 52166); and October 28, 1992 (57 FR 48801). CERCLA also requires ATSDR to assure the initiation of a research program to fill data needs associated with the substances

Section 104(i)(3) of CERCLA [42 U.S.C. 9604(i)(3)] outlines the content of these profiles. Each profile is required to include an examination, summary and interpretation of available toxicological information and epidemiologic evaluations. This information and these data are to be used to ascertain the levels of significant human exposure for the substance and the associated health effects. The profiles must also include a determination of whether adequate information on the health effects of each substance is available or in the process of development. When adequate information is not available, ATSDR, in cooperation with the National Toxicology Program (NTP), is required to assure the initiation of research to determine these health effects.

Although key studies for each of the substances were considered during the profile development process, this Federal Register notice is to solicit any additional studies, particularly unpublished data and ongoing studies, for possible addition to the profiles now or in the future.

The following draft toxicological profiles are expected to be available to the public on or about October 17, 1995.

Docu- ment	Hazardous sub- stance	CAS No.
1 2 3 4 5	Benzene	000071-43-2 470-90-6 000067-66-3 002921-88-2 000057-12-5 001762-95-4 021725-46-2 000074-90-8 000143-33-9

	1	I

All profiles issued as "Drafts for Public Comment" represent the agency's best efforts to provide important toxicological information on priority hazardous substances in compliance with the substantive and procedural requirements of Section 104(i)(3) of CERCLA, as amended. As in the past, we are seeking public comments and additional information which may be used to supplement these profiles. ATSDR remains committed to providing a public comment period for these documents as a means to best serve public health and our clients.

Dated: October 24, 1995.

[ATSDR-101]

Availability of Final Toxicological Profiles

AGENCY: Agency for Toxic Substances and Disease Registry (ATSDR), Department of Health and Human Services (HHS).

ACTION: Notice of availability.

SUMMARY: This notice announces the availability of five final and six updated final toxicological profiles of priority hazardous substances comprising the seventh set prepared by ATSDR.

FOR FURTHER INFORMATION CONTACT: Ms. Kim E. Jenkins, Agency for Toxic Substances and Disease Registry, Division of Toxicology, 1600 Clifton Road, NE., Mailstop E–29, Atlanta, Georgia 30333, telephone (404) 639–6357

SUPPLEMENTARY INFORMATION: The Superfund Amendments and Reauthorization Act (SARA) (Pub. L. 99–499) amends the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA or Superfund) (42 U.S.C. 9601 et seq.) by establishing certain requirements for ATSDR and the Environmental Protection Agency (EPA) with regard to hazardous substances which are most commonly found at facilities on the CERCLA National Priorities List (NPL). Among these statutory requirements is a mandate for the Administrator of ATSDR to prepare toxicological profiles for each substance included on the priority lists of hazardous substances. These lists identified 275 hazardous substances that ATSDR and EPA determined pose the most significant potential threat to human health. The availability of the revised list of the 275 most hazardous substances was announced in the Federal Register on February 28, 1994 (59 FR 9486). For prior versions of the list of substances see Federal Register notices dated April 17, 1987 (52 FR 12866); October 20, 1988 (53 FR 41280); October 26, 1989 (54 FR 43619); October 17, 1990 (55 FR 42067); October 17, 1991 (56 FR 52166) and October 28, 1992 (57 FR 48801).

Notice of the availability of drafts of the seventh set of 11 toxicological profiles for public review and comment was published in the Federal Register on October 18, 1993 (57 FR 53739), with notice of a 90-day public comment period for each profile, starting from the actual release date. Following the close of each comment period, chemicalspecific comments were addressed, and where appropriate, changes were incorporated into each profile. The public comments, the classification of and response to those comments, and other data submitted in response to the Federal Register notice bear the docket control number ATSDR-75. This material is available for public inspection at the Division of Toxicology, Agency for Toxic Substances and Disease Registry, Building 4, Suite 2400, Executive Park Drive, Atlanta, Georgia, (not a mailing address) between 8 a.m. and 4:30 p.m., Monday through Friday, except legal holidays.
